**WEDNESDAY
FEBRUARY 22**

**THURSDAY
FEBRUARY 23**

08:30-09:30	Registration opens					Registration opens					Registration opens					Site visits																														
	AUDITORIUM (Rooms N103+N104)					AUDITORIUM (Rooms N103+N104)					AUDITORIUM (Rooms N103+N104)																																			
09:30-10:00	OPENING CEREMONY + HIGH LEVEL PANEL Renewable Energy, the Solution for Net-zero, sustainable Development, energy security and sovereignty - 2050 roadmaps start now! (9:30 - 12:30)					Renewable energy for social and economic development for all (9:30 - 10:30)					Energy and industrial policies to mainstream renewables (9:30 - 10:30)																																			
10:00-10:30						Break (10:30 - 11:00)					Break (10:30 - 11:00)																																			
10:30-11:00						Room N101	Room N102	Room N106	Room N105	Room N117	Room N101	Room N102	Room N106	Room N105	Room N114																															
11:00-11:30	1C - Ramping up Renewable Energy Deployment: The indispensable building block					2C - Renewables for Transport					3C- The New Rules of Renewable Energy Supply Chains						4C - Renewables Leading the Transition: Just, equitable, distributed, inclusive					5C - Consumer Trends in Goods and Services Markets: Building strategically on ESG to accelerate renewables																								
11:30-12:00																											¿Las ciudades hacen su parte? Ecologistas en Acción, WWF España, Amigos de la Tierra, SEO/BirdLife					Launch of the Global Landscape of Renewable Energy Finance 2023 International Renewable Energy Agency (IRENA)					Technology pathways for decarbonization of energy intensive industries United Nations Industrial Development Organization (UNIDO)					Stakeholders' Role in the Electricity Grid Infrastructure Planning Renewables Grid Initiative (RGI)				
12:00-12:30																											Lunch Break (12:30 - 14:00)					Lunch Break (12:30 - 14:00)					Lunch Break (12:30 - 14:00)									
12:30-14:00	Room N101	Room N102	Room N106	Room N105	Room N117	Room N101	Room N102	Room N106	Room N105	Room N117	Room N101	Room N102	Room N106	Room N105	Room N117																															
14:00-14:30	1A - Rethinking our Energy Supply: Renewables, energy security and geopolitics	2A - Renewables for Industry	3A - Local Value Creation: Building inclusive economies	4A - Can renewables solve energy poverty?	5A - Beyond Technology: Using Social and Policy Innovation to Accelerate the Shift to Renewables	1D - Grids and Infrastructure: The backbone of renewable energy systems	2D - Renewables for Buildings	3D - Mind the Gap: Job offers and skilling	4D - Engaging Citizens from the bottom-up	5D - Digitalisation to Speed up the Energy Transition	1E - Building Energy Resilience: Large centralised vs. distributed systems	2E - Electricity, Hydrogen and Low Thermal: The Interplay	3E - The Case of SMEs: Driving change outside globalised markets	4E - Stopping the Exodus: How Renewables Can Make People Stay	5E - End-of-life: Circularity in renewables																															
14:30-15:00	Break (15:30 - 16:00)					Break (15:30 - 16:00)					Break (15:30 - 16:00)																																			
15:00-15:30	Break (15:30 - 16:00)					Break (15:30 - 16:00)					Break (15:30 - 16:00)																																			
15:30-16:00	Break (15:30 - 16:00)					Break (15:30 - 16:00)					Break (15:30 - 16:00)																																			
16:00-16:30	AUDITORIUM (Rooms N103+N104)					AUDITORIUM (Rooms N103+N104)					AUDITORIUM (Rooms N103+N104)																																			
16:30-17:00	1B - Beyond Market Reform: Strengthening Supply Chains to Scale Up the Renewables Sector	2B - Renewables for Agriculture	3B - The Renewables Transition: Turning Crises into Economic Opportunities	4B - Changing Energy Governance: Communities and cities shifting to renewables	5B - Disrupting the Fossil Fuel Reality: Using innovation to shift to renewables	Good practices in ecological and socio-economic integration of renewable initiatives Global Solar Council (GSC) / Spanish PV Association (UNEF)	100% Renewable Cities and Regions: Argentina, Indonesia and Kenya ICLEI - Local Governments for Sustainability	Renewable Energy to achieve universal access to energy Mesa para el Acceso Universal a la Energía	The critical role of Marine Energy in the sustainable energy transition - supported by international standards and certification International Electrotechnical Commission (IEC)	Australia: A successful integration of substantial and increasing levels of variable renewable energy Clean Energy Council (CEC)	Gender Equality: A critical pathway for a sustainable and inclusive energy transition United Nations Development Programme (UNDP)	Mobilisation of Finance to Achieve SDG7 in Africa - Launch of the 2022 AEEP Report on Financial Flows African-European Energy Partnership (AEEP)	Closing Ceremony: Continuous acceleration to be 2050-ready (15:45 - 17:15)																																	
17:00-17:30	AUDITORIUM (Rooms N103+N104)					AUDITORIUM (Rooms N103+N104)					AUDITORIUM (Rooms N103+N104)																																			
17:30-18:00	Day's Learning: Perspectives (17:30 - 18:00)					Day's Learnings: Perspectives (17:30 - 18:00)					Day's Learnings: Perspectives (17:30 - 18:00)																																			
18:00-18:30	Room N101	Room N102	Room N114	Room N105	Room N117	Room N101	Room N102	Room N106	Room N105	Room N117	Room N101	Room N102	Room N106	Room N105	Room N117																															
18:30-19:00	Hacia una Transición Energética eficiente en las Islas IDAE	Empowering Lives and Livelihoods: Renewables for Adaptation USD 1-Billion Financing Facility to Reinforce Resilience in Agri-Food and Health Value Chains with Renewable Energy (A COP28 Initiative) United Arab Emirates (UAE)	What Community Power Needs World Wind Energy Association (WWEA)	The Role of Bioenergy in Spain and Beyond World Bioenergy Association (WBA)	Lessons Learned in Rapid Decarbonization of Power Sectors National Renewable Energy Laboratory (NREL)	Vientos de futuro: el diálogo para el desarrollo inclusivo de la eólica Vientos de Futuro	Mesa de diálogo del Cambio Climático y Energía: La experiencia de Navarra Mediación Navarra	Faster and further with HEAT PUMPS: decarbonizing heating, cooling and hot water European Heat Pump Association (EHPA) / Air Conditioning Equipment Manufacturers Association (AFEC)	Alliance for a Just Energy Transformation (AJET) - A collaborative discussion on shaping the Alliance's strategy and its implementation World Wildlife Fund (WWF) / United Nations Development Programme (UNDP)	How to Scale Minigrids and Score a Climate Win- Win Africa Minigrid Developers Association (AMDA) / Husk
